

The core business of CGH Group Sp. z o.o. is production and design of:

- single- and double-shell tanks for storing inflammable, poisonous and caustic liquids,
- fixed pressurised tanks, equipment for tanks and steel structures.

The mission of CGH Group Sp. z o.o. is to ensure professional customer service by delivering products that meet quality, price and environmental expectations, and thus strive for expansion on domestic and foreign markets and fulfil the following objectives:

- continuous development of the company and strengthening of its position on the market by increasing the number of customers and achieved revenues,
- acquisition of new customers for the company products and services in the country and abroad,
- continuous improvement of the product quality,
- meeting of the quality requirements for welding of metallic materials specified in ISO 3834,
- use of raw materials and supplies that guarantee repeatable quality of our products,
- commitment of all personnel to the continuous improvement of the System,
- clear definition of responsibilities and competencies of the employees.

We will fulfill the above objectives through the following:

- continuous monitoring of the implemented processes,
- professional and individual approach to the customer and high quality of customer service,
- introduction of new and effective marketing activities,
- assessment of customer needs and responding to their opinions on an ongoing basis,
- well-thought investments enriching infrastructural facilities and creating new and safe production technologies,
- a scheduled staff training system.

In our operations, we undertake to:

- comply with applicable legal and other requirements for OHS, and requirements regarding environmental compliance,
- protect the environment, including to prevent pollution, and commit to sustainable use of resources and mitigate climate changes,
- ensure safe and hygienic working conditions to prevent work-specific injuries and health ailments,
- prevent and eliminate hazards and limit OHS risks,
- consult and cooperate with employees and their representatives,
- improve the quality management system according to the requirements of ISO 9001, the environmental management system according to the requirements of ISO 14001, the OHS management system according to the requirements of ISO 45001.

We wish our company was seen as a trustworthy partner and our business was characterised by **RELIABILITY, TIMELINESS AND SAFETY.**

This Integrated Management System Policy has been communicated within the organisation and is available to the public.

We declare our full commitment to the implementation of this Policy and to providing access to information regarding the impact of CGH Group Sp. z o.o. on the surrounding environment to all stakeholders.
