

# Storage tanks for liquid fertilizers

## Tank dimensions and design:

- Capacity: 25 m<sup>3</sup> and 50 m<sup>3</sup> – available up to 100 m<sup>3</sup>
- Tank diameter: 2.500 mm – available diameters: 2.000 – 2.900 mm
- Internal coating resistant to liquid fertilizers
- Tank with a slope towards the drain pipe
- Drain pipe DN80 with ball valve with protection against accidental opening, lockable
- Manhole cover DN600 on hinges for quick and easy opening
- Drip tray under drain pipe
- Venting pipe DN40
- Ladder, railings and platform galvanised
- Tank colour options:  
**RAL9010** – white, **RAL7035** – grey,  
**RAL5010** – blue, **RAL6029** – green

## Tank advantages and benefits for users:

- Tank with a slope which allows to empty and clean it in an easy way
- Drip tray under the drain pipe prevents environmental contamination
- Manhole cover designed for easy handling at filling and inspection
- Larger platform with railings ensures greater user comfort and safety
- Ladder can be mounted from both sides
